OVERVIEW

About Mobile App Design

An app succeeds when people find it easy to use. Designing the screens and user flow carefully before any code is written saves time and money and gives developers a clear plan to build from.

We turn your app idea into a complete set of screen designs and a clickable prototype you can test on a phone and share with developers or investors.

WHO IT'S FOR

- Start-ups and businesses planning a new app
- Students working on app projects and hackathons
- Developers who need a professional design before building

WHAT'S COVERED

In detail

01 Discovery

Understanding the app's purpose, users, and key features, and listing the screens needed.

02 User flow and wireframes

Mapping how users move through the app, then simple layout sketches of each screen.

03 Visual design (UI)

Polished screens with colours, typography, icons, and components that follow Android and iOS design guidelines.

04 User experience (UX)

Making common tasks quick and obvious, with clear buttons, feedback, and error states.

05 Clickable prototype

An interactive prototype you can tap through on your phone to test the design before development.

06 Developer handover

Organised design files with sizes, colours, and assets ready for developers.

HOW IT WORKS

Step by step

- 1 Discuss your app idea and target users
- 2 Agree the list of screens and features
- 3 Wireframes for review
- 4 Final UI designs and clickable prototype
- 5 Revisions and developer handover

WHAT YOU GET

- A full set of app screen designs
- A clickable prototype to test and demonstrate
- Design files ready for developers

QUESTIONS

Good to know

Do you also build the app?

This service covers design and prototyping. Ask us if you need help finding the next step for development.

Which tools do you use?

Industry-standard design tools such as Figma, with files you can share with any developer.

Interested? Message us on WhatsApp or call **+91 93377 22146** to discuss your needs, fees, and schedule. Email: amaresh.nist@gmail.com · Mon – Sat, 6:30 PM – 9:30 PM.
